Rotherham SEMH Phased Thresholds

It is not expected that all children and young people will automatically have the basic social, emotional and learning skills they need to succeed. We understand that context plays a key role in behaviour and that the duty of all settings is to provide a learning environment designed to promote positive behaviour and relationships. Key aspects that need to be in place are: an effective whole school policy for behaviour and inclusion, reviewed and shared with all stakeholders, consistently applied and rigorously monitored; a restorative ethos; a creative and engaging curriculum and learning opportunities.

All students who are discussed at Partnership Cluster Groups should have had significant support in addition mainstream lessons. The support should be strategic, time managed with referrals made to the relevant agencies.

Note

This document, inspired by Education Bradford's Behaviour Support services ESB/Five level model, was produced to meet the demand for a greater consensus and consistency in identifying and providing for social, emotional and mental health needs. When considering pupils for provision beyond the school, the criteria met should be evidenced and discussed at Partnership levels with advice and guidance from the SEMH team/ Exclusions Team and ASPIRE Pupil Referral Unit.

- Phase 1 should be managed by schools in addition to the school Behaviour and Inclusion Policies
- Phase 2 should be managed by schools, with referrals early help/ other agencies. A range of wider assessments should be considered and undertaken to support the student.
- Phase 3 should be managed by schools, the partnership, AP and PRU.
